Never before has there been such

a reign of terror in the Lone Star

State as at the present time. No

man's life is safe from the infamous

gangs of cut-throats whose murders

are legalized by their commissions as

"State Police."

None dare, even to

their neighbors and friends, express

their horror at the atrocities perpetuated

daily by these fiends, lest they

may be the next victims. Justice is

blind, law forgotten, and mercy dead.

Each mail brings to us news

of the most appalling tragedies, and

the air is full of rumors which curdle

the blood yet tell but half the truth

of the diabolical cruelties of hourly

perpetration by these pitiless mard-

ders who are tyrannizing over us as

absolute.

Brevet Major General Joseph Jinks

Reynolds organized this internal

band of cut-throats, the State Police

and highway robbers, and by his instrumentality of this class was

enabled to declare the election of

OLD SPAIN.

Last Thursday, this memorable old Government elected a King. The people had no voice in the matter, whatever, but are forced by bayonets to submit to the will of a few, who call themselves the Spanish Cortes. This Cortes elected a King, and the miserable licks-puddles and slaves of a Monarchical Government shouted vivas, amidst the roaring of canon and bursting of rockets. Spaniards should have a master, and an hard one at that, because of their ignorance and lawlessness.

The Cortes elected the Duke Astor, the youngest son of Victor Emanuel, and it is very questionable whether he will hold his crown quietly. It is believed that the rightful owner of the crown, a son of Don Carlos, will yet be placed upon the Throne. Whoever continues in its possession, it is hoped will not be able to conquer the Cubans.

WASHINGTON.

This city of "magnificent distances" has become quite lively since Grant's return to the White House. Grant is superintending the writing of his message, which by the way is considerable for a hand of his standing to condense to so. He wants the braves to write one himself but can easily hire mind. He is a fair representative of radical ignorance and baseness. He has a terrible hatred for law abiding States and the people thereof, and he takes pleasure in scourging and oppressing them, if not with his blue-coated shoulder-strapped myrmidons, why then with his murdering thieves, as our readers will see by perusing an article headed "Terrorism in Texas." Such acts in a country calling itself Christian, are beautiful for contemplation, especially on this beautiful Thursday morning. Let us suggest to the true friends of humanity that they give thanks that our old common earth is not now being scourged in like manner.

We are satisfied that the days of radicalism are numbered, and when it returns to hell from whence it came, there will be cause for thanksgiving and rejoicing on earth.

It is said that Grant proposes to take Beast Butler into his Cabinet. He should do so by all means. It can then be said, and truthfully at that, that his administration is infamous in the lowest degree.

The telegraph informs us that Grant has ordered Motley, to come home immediately. Alabama claimants are making a terrible effort just now, and is believed that Grant don't want peace with England. There is much speculation of all kinds politically speaking, much of which amounts to nothing.

HON. T. L. JONES.

The political ring-leader for the 6th District, is pointing directly to Thos. L. Jones, as the first choice of the people for Governor of Kentucky. His friends are numerous, influential, and respectable, and they seem doubly determined to make him Governor; nothing short of that position will satisfy their admiration and unyielding desire to give him position. The Democracy are well satisfied with Col. Jones' stewardship, and as he has proved faithful over a few things, they propose to make him ruler over many. He would make a splendid Governor. We publish in another column the proceedings of the Democratic meeting held in Boone county recently, wherein Col. Jones was nominated for Governor, and the whole delegation from that county instructed to cast their vote for him. We also publish herewith a resolution from the proceedings of the Trimble county Democratic meeting, held in Bellford on Monday, November 14th. It is very strong, and in heat the feel of that is possessed by his friends; resolved, that we, the Democracy

of Trimble county, having unbounded confidence in the integrity, patriotism, talents and uncompromising principles of Hon. Thos. L. Jones, our Representative in Congress; and for the noble and manly course pursued by him, in the late contest for Congress, in this district, in withdrawing from the contest, for the purpose of maintaining the honor and integrity of the Democratic party and securing the success of true Democratic principles; and that the unwavering opposition of Col. Jones to the revolutionary and destructive course of the Radicals in Congress, for the past three years, and the able manner, in which he has discharged his duties, as our representative, should meet the approbation of every lover of our form of government, and point to him as eminently deserving and qualified to fill the Gubernatorial chair of our Commonwealth; and we join our political brethren, in other portions of the State, in recommending his nomination, as the Democratic candidate for Governor.

Democratic Meeting in Boone County.

PETERSBURG, BOONE CO., KY.

November 7, 1870.

To the citizens of the Empire:

A meeting of the Democracy of Boone county, Ky., held in the Court House in Burlington, for the purpose of appointing delegates to the convention to be held in Frankfort, Kentucky, May 3, 1871, to nominate a Democratic candidate for Governor, was called to order with Dr. S. S. Scott in the Chair, and J. F. Grant acting Secretary.

It was moved that the delegation from this county be instructed to cast their full vote for the Hon. Thos. L. Jones, for Governor. Carried unanimously.

A motion that the delegation cast their vote for R. F. Harriion for Register of the Land Office, and D. Howard Smith for Auditor of State, was carried.

A motion that a committee of ten be appointed to nominate delegates was lost.

On motion, the Chair appointed the following delegates, who are requested to attend the Convention at Frankfort, Ky., on the above mentioned date without further notice: From Burlington, John Wallace and A. P. Parker. From Big Bone, W. B. Baker and B. R. Steel. From Bellevue, M. W. Akers and J. F. Grant. From Covington, W. A. Roberts and J. M. Hume. From Walton, L. T. Young and Jerry Green. From Taylorsport, Dr. W. B. Grubbs and Wm. W. Wats. From Petersburg, Wm. Parker and W. T. Ferrell. From Carlton, Dr. McH. Raymond and John S. Hixey. From Union, L. C. Norman and J. M. Samsler.

EUROPEAN WAR NEWS.

MONDAY, November 21.

In England, the preparations for war are continued night and day. If the iron-clads and a number of wooden vessels and transports are being fitted up for sea, and Snider breech loaders are being served out to the volunteers and regiments. A war council will be held in London next week to decide the action of the Government in the stand it has taken on the Russian question. A telegram says that Old Russia has received assurances from Bismarck that there is no reason under existing law between Russia and Prussia on the black sea question. Advoce from Constantinople shows that the Porte is preparing to make an energetic resistance. It is thought that the aspect of the Russo-Turkish difficulty is more peaceful. An official statement shows that the army of Russia, on a war footing, numbers 1,557,657 men. Lori Lyons, at Paris, has given the French Government to understand that Old Russia is instructed not only to demand explanations on the new attitude of Russia but also to firmly demand arbitration, which will permit France to hold elections. There was a great Republican demonstration at Tours on Saturday night. The troops under MacMahon had rallied and captured eight hundred Prussians. A correspondent writing from Versailles on the 19th, gives a gloomy account of the German situation, and states that no bombardment of Paris seems possible before spring, as the heavy guns have not been brought up yet, owing to the muddy roads. A great amount of sickness prevails among the German troops. A dispatch from Tours reports that the Duke of Mecklenburg and General Von Der Taube are fallen sick while the French are advancing and threatening to oust them both.

TUESDAY, November 22.

A dispatch from Berlin states that both the British and Russian Ministers say that the danger of a rupture in the Russian question is among the independence. Bismarck expresses the fear that war is inevitable. The London Post denies that Italy has refused to join England and Austria in opposition to Russia. The Leyden Herald says it has reason to believe that the Porte has ordered the military reserves to be called out. There is reported to be a strong war feeling throughout Russia. The excitement at Vienna continues unabated. Lord Palmerston has notified his colleagues and the Cabinet that he will resign the office should the English Government declare war against Russia. Bright, Lowe, Cardwell, and Gladstone, it is thought, will

do the same. All leaves of absence to the English Guards have been canceled, and they have been ordered to prepare for active service. A special dispatch from London says there is evidence that a secret alliance, offensive and defensive, exists between Prussia and Russia, made before the Franco-Prussian war.—Private dispatches received in Tours last night contain the assurance that an armistice had been agreed upon. No particulars had been received. General Paladines, commanding the Army of the Loire, is said to be occupying the attention of the Duke of Mecklenburg with a portion of his army, while he is moving the bulk of his forces, not less than 150,000 men, northward, to form a junction with Kersey, coming from the west with 50,000 men, and with Bourbaki, coming from the north west with 65,000 men. When these armies join the number of troops will not be less than 255,000, with which force he intends to move on Versailles. Part of the force of Prince Frederick Charles has established communication with the Duke of Mecklenburg between Etampes and Fontainebleau. The whole force of the former will probably effect a junction on the 23d. The united force will then be 120,000. A four-dispatch says a severe engagement is expected to-day or tomorrow. It is denied at Tours that the Army of the Loire has met with any reverse.

WEDNESDAY, November 23.

The feeling in England yesterday on the Eastern question was much better, and confidence in money circles has been in a measure restored, and bread-stuff were declining. It is believed in Downing street that Russia will withdraw her demands and refer the question to a conference which will not be summoned until after the termination of the present war. It is also thought that Italy will ultimately join Austria and England in opposition to Russia.

A telegram received in London from Vienna, dated the 22d, says Russia's wishes in regard to the Black Sea might have been forwarded through diplomatic channels, and possibly conceded to by the great powers concerned, but her arbitrary expressions will call for the greatest resistance from all the parties. The Germans at Paris are actively engaged in forming a second outer line of defense in the strategy of General Paladines is under way at Versailles, and has been met by a counter-movement, General Paladines, with his center at Orleans, has extended his line both north and south, intending to include the Germans on both banks. The latter have executed similar movements, at the same time falling back toward Paris. General Paladines' line is now said to extend from Etampes through Vendome, Orleans and Bruges to Nevers. The garrison at Montmédy made a successful sortie on the 17th inst. Five hundred Germans were either killed, wounded or captured. The besiegers have since withdrawn beyond the line of the fortress. The Prussians were yesterday actively bombarding Thionville. General Garibaldi's troops are rapidly improving in discipline, and are being somewhat increased in numbers. The armistice negotiations are said to be again blocked by the question of repossessing Paris. Paris advises the first state that the city is entirely安静。 The supply of meat has been limited to fifty grammes daily. Household and vegetables are still abundant. All unmarried men between the ages of twenty and thirty-five years, have been enrolled in the National Guard. A balloon which arrived at Tours yesterday from Paris, brings later intelligence, that the successes of the Army of the Loire had produced an excellent effect. Dissensions were forgotten, and amnesty for political offenses had been granted, and the people abandoned their eagerness for a strife and were resigned to stand on the defensive. There has been no serious fighting around the city of

Paris. The Porte is preparing to make an energetic resistance. It is thought that the aspect of the Russo-Turkish difficulty is more peaceful. An official statement shows that the army of Russia, on a war footing, numbers 1,557,657 men. of bonds—the four and five per cents. Subscribers must deposit two per cent., the amount to be accounted for on the delivery of the bonds.

Without some important change in the market, based on the outline here presented, it is plain that the new bonds will find very few takers. Cash gold is now in demand from day to day, at rates ranging from 4 to 24 per cent., and averaging 10 to 12 per cent. per annum. When holders of the precious metals can command such rates, it is scarcely probable that they will invest it in securities that pay only 4 per cent. Of course, Mr. Boutwell can et al may moment change this feature of the gold market, by liberating a few millions in specie from the Treasury, either by extra sales, or the more effective method of calling in the outstanding bonds, and stopping interest on them. But the latter course cannot be adopted so long as the present discrepancy of 4 per cent. between gold and five-twentieths exists.

Until bonds are again brought up to the figures at the commencement of the European war, there is little probability of the new 4 per cent. bonds being sold at par for gold. To accomplish this object is, then, the present object of the Secretary. At present it is a favorable indication that the usual fall inflation has set in with considerable force. There is a general movement in stocks and bonds, which, if carefully stimulated, by an easy money market, may carry five-twentieths up to the specie standard, and thus enable Mr. Boutwell to realize his policy.

But the results at best are dubious, a great deal depends upon contingencies which are utterly beyond the control of the Secretary of the Treasury. Any change in the exceptional case of the European money market may cause a resumption of species exportations, and a general stringency in this market. Money is now easy everywhere, because war has tightened capital from all industrial operations. It accumulates therefore, in vast amounts at the great money centers. It is to be observed that either a continuance of the war or a return of peace will change the financial situation. If the war continues and extends, the beligerents will require loans; if the war terminates, capital will gradually return to its old channels or seek new sources of investment. In any case, the present case in the London money market cannot be remedied by a return of the old system with suspended force, as is always the case when medicated stimulants are given for the complaint. Each dose seems to impart a permanent accession of healthful invigoration. But this is not all. The appetent and anti-bilious properties of the species are also due to its invigorating effect on its tonic virtues. It is there an overflow of bile secretion is soon brought within proper limits and in the biliary organs is removed and regulated. The effect upon the disengaged organs is equally salutary, and in cases of constipation, the cathartic action is just as prompt and powerful as the purgative. Bile also promotes healthy evaporation from the surface which is particularly desirable at this season. Stimulants of raw, aperient weather are apt to check the natural perspiration and produce congestion of the liver, lungs, and coils. The best safeguard against all these evils is to drink this great Vegetable-Betony tea, which sooths and promotes.

The appetite is not stimulated, it is always the case when medicated stimulants are given for the complaint. Each dose seems to impart a permanent accession of healthful invigoration. But this is not all. The appetent and anti-bilious properties of the species are also due to its invigorating effect on its tonic virtues. It is there an overflow of bile secretion is soon brought within proper limits and in the biliary organs is removed and regulated. The effect upon the disengaged organs is equally salutary, and in cases of constipation, the cathartic action is just as prompt and powerful as the purgative. Bile also promotes healthy evaporation from the surface which is particularly desirable at this season. Stimulants of raw, aperient weather are apt to check the natural perspiration and produce congestion of the liver, lungs, and coils. The best safeguard against all these evils is to drink this great Vegetable-Betony tea, which sooths and promotes.

LAIRES.

At Lair's Station, on the Kentucky Central Railroad, a young man by the name of Joe Duncan attempted to board the upward-bound freight train while in motion, and fell between the cars, which passed over him, cutting off one of his legs.

Elder Wilkes.

This gentleman, it will be remembered, debated several Theological points with Rev. Mr. Ditzler, in this city last summer. We have been informed that these gentlemen will meet again in Louisville, on the 13th of December 1870. Langford B. Wilkes, is preaching for the Christian people in Lexington, where he has been laboring for several years past. His congregation and membership is large, and the man who fills his pulpit must have some mind.

Mr. Wilkes has many points which eminently fit him for the work in which he is engaged, and not least of them is his thorough knowledge of the Bible, and the manner in which he handles it, overshadows at once his opponent and leaves him with his proposition unanswered and nothing further to talk about. His perceptions are large, and can tell his opponent what he wants to say before he utters it—and if permitted could furnish a better argument.

Quick to perceive and quick in speech, Elder W., can say more in five minutes than many men can in fifteen. Many men are like good race horses, the harder they are pressed the better time they make. We believe that if Elder W. was crowded he would surprise his friends much more than ever.

COVINGTON ITEMS.

Says the Covington Journal: "A worthy citizen of our city, in some what strained circumstances, an 18-year-old boy, was made glad a few days since by being presented with \$25,000 in United States bonds by a rich relative in Cleveland." The Carrollton Democrat says:

"Last Spring, a boy, son of a Mr. Bear, was drowned while crossing Twin, in Owen county. The body was found a few days ago, buried in the mud, near the mouth of that creek and was taken to Madison for interment."

The Cincinnati Enquirer says: "A young gentleman named Spragins, of Cynthiana, Ky., was halted by four highwaymen, a few nights since on the river road below this city, but by pointing a navy revolver at them he caused the villains to beat a hasty retreat. A pistol is a good thing for a person to have who travels any of the roads leading into Covington last night."

Mr. Spragins is the Deputy Circuit Clerk of this county.

COVINGTON MARKET.—Cattle.—The receipts of cattle during the past week amounted to 1,611 head, of which 780 head were shipped Eastward. The remainder were sold here. The market is steady, and prices have undergone no material change since our last report. We quote shipping cattle at \$6@6½¢; first quality of butchers cattle 5½@5 3/4¢; second quality do, 4½@5½¢; third quality do, 4½@3½¢.

Sheep.—There is a moderate demand for sheep, with receipts and sales during the past week of 350 head at 2½@4½¢.

Hogs.—The aggregate receipts during the past week amounted to 14,832 head. The market has fluctuated somewhat since our last report. Sales were made at \$6@6 9/10 per 100 pounds gross according to quality.

The Carrollton Democrat says:

pointed a committee to visit and examine first the lands of Colorado and then of other territories. This committee will be here in a few days. A private note from Capt. Long says that the organization now numbers about 150, and will be increased to at least 200 by spring, and that he and Capt. Givens will be here by the middle of November. We need not assure them a cordial welcome.

WHAT NEXT?

Rev. O. B. Frothingham thus explains what is known as a radical religionist, some of whom he is which is:

"We do not bow the knee to Jesus; we do not sit submissively at his feet; he is not for us lord and sovereign master. The radical believes in immortality; not because Jesus rose from the dead, for had not men believed in immortality they would never have believed he rose. The radical is interested in immortality as a high religious belief. He believes in as much of the Bible as answers to his cultivated reason and his matured conviction, and in no more. He reads it as he reads other books, and judges it. What his heart authenticates he accepts. What is good was good before it was in the Bible, or it would not be good there."

For the Cynthiana News.

Mr. MOREY.—The numerous readers of your paper were, no doubt, as well as myself, highly entertained and profitably instructed by an article which recently appeared in its columns, from the pen of one of your contributors, under the signature of H. L. For the clear and very comprehensive exposition he has given us, of "all the requirements essential to a good teacher," we are thankful; but from his evident desire to condense, for the sake of brevity, one very important duty of the country school teacher seems to have been overlooked by him.

Long ago, a wise man said that to spare the rod was to spoil the child. If this saying be applicable to the school room, it may possibly come in the sphere of the teacher's duty sometime to apply the birch.

Well do I remember the unhappy scene of my childhood's educational experience.

It was a little log school house in a deep, dark hollow, far removed from the genial rays of the early sun. Often did I wonder

in my childish simplicity why such a spot had been selected for our school house. I have since learned that it was from economical considerations—the grounds about would not admit of cultivation. We went to school there from eight o'clock in the morning to five o'clock in the afternoon, and a boy got the worth of his money. There was none of your nonsense of black boards, globes, and philosophical apparatus. It was sober business, and no trifling. There were the wooden desks around the wall, and seats with no backs to them, and there we sat all day with our faces to the wall; and along about four o'clock of a summer's afternoon we would begin to savor educational advantages, and get drowsy, and then the teacher would come around very slyly, and with a big stick bring us back instantly to an appreciation of our educational advantages. And when we learned our A B C's, we learned them! I remember the whole process. "What letter is that?" "I d-o-n-t know." (Cuff) "What letter is that?" (higher key) "I d-o-n-t know." (Cuff, cuff) I remember about it. Who will say, under the circumstances, that that teacher would have succeeded without the presence of that big stick which he carried with him, as he stalked up and down the schoolroom? And one day, too, a most awful circumstance occurred. Word came to the teacher that Joe Smith had actually kissed Alice Jones!—Actually kissed her! and that teacher arose in his indignation, and didn't Joe Smith take it! Why should not that teacher be filled like a vial of wrath at such a thing! He had never kissed anybody! Nobody had ever kissed him! But Joe's flagging did no good this time; for fifteen years later, a minister stood within the altar, a bridal train swept down the aisle, and there, in the presence of the world, Joe Smith kissed Alice Jones.

We will assert that an occasional application of the birch, on the part of the teacher, does not form one of the essential requisites in dispensing to a good teacher?

From the New York Day-Book.]

Traitors in the Camp.

The Louisville Courier-Journal and the New York World are working with might and main to politically demoralize the Democratic party, and seduce it from the grand old principles of its founders. Both these debauched sheets are coaxing the Democrats of the country to politically "cuddle up" to the negroes, and have but one bed for the whole party of blacks, whites, and moths. We advise every man of Democratic principles, when he sees these dirty sheets anywhere but within the precincts of Mongrelism, where they truly belong, to take a pair of tongs, and pitch them into the only place which is a fit receptacle for such demoralizing trash.

By the way, it is very proper to say herein, that perhaps the Courier-Journal should be relieved from all individual responsibility in this dirty business of trying to debauch the Democracy of the country, for we are informed that the unfortunate shee is under weighty pecuniary obligations to the World, and is therefore, a mere puppet of Manton Marble's, bobbing up and down right an Heel as Marble pulls the string. We are inclined to the opinion that the miserable Punch and Judy concert should be ex-used for its position. It is simply an automaton owned by the World and made to politically "shout" as Manton Marble wills. Poor emasculated Courier-Journal!
